How to find a recipe & get Bonus Toys

Sometimes for whatever reason you want to create a certain Toy – but don't know the recipe. What to do?

One way to find out a recipe is to simply check the latest player actions at the game. Focus on melting actions... (click the button to read the full article)

More than 1 winner in Alchemy Toys? What is the sacrifice index?

The sacrifice index is the sum of the serial numbers of sacrificed Toys. If there are several winners of an epoch (a maximum of 7 winners per epoch), the Temple Treasure is split amongst them according to their sacrifice index.

Lower index means that the player has sacrificed Toys with lower serial numbers (#) and is thus eligible for a bigger cut of the winnings.

Means older Toys are more valuable!

That is one reason why collectors sell Toys to Players at Minted Vodka NFT Exchange.
